To Whom It May Concern:

I am writing this letter of recommendation on behalf of Nimesh Bhavsar, principal at OM Engineering, Inc. I have had the pleasure of working with Mr. Bhavsar's firm that provided sub-consultant services to us. OM Engineering assisted our company in the preparation of the structural design for a ramp bridge over Town Center Blvd. as part of the new interchange of SR 417 and Florida's Turnpike in Orange County, Florida. OM Engineering provided us with accurate, well thought-out designs of all the structural components of the bridge, which is a single concrete span with a length of 144 feet.

Mr. Bhavsar is well experienced in both roadway and bridge design, and I hereby attest to his satisfactory performance of his duties for our joint effort in the interchange project. I would highly recommend utilization of OM Engineering on future projects of similar or even more complexity. Mr. Bhavsar is very quality minded and invests his time effectively in his company's endeavors.

Sincerely,

RS&H Inc.
